WORK EXPERIENCE

Unreal Developer APR 2022 - Currently
QORPO s. r. o. - Bratislava, Slovak Republic
In my role as a game developer specializing in Unreal Engine, I am tasked with crafting game mechanics, fostering collaboration with fellow team members, and enhancing the overall gaming experience. Additionally, I specialize in optimizing network performance to ensure seamless online gameplay.

Video game programming lecturer JUNE 2021 - DEC 2022
Hemisféra Iavá o.z. - Bratislava, Slovak Republic
I teach kids how to design and program video games using technologies such as Unity, C#, GDevelop, Construct, Piskel, and Blender.
